SUMMARY

Computer enthusiast with knowledge of programming languages, including a fundamental understanding of Linux operating system and web development. A good foundation with basic penetration testing and information gathering. Committed to lifelong learning, keeping up with the most recent developments in technology, and contributing to creative ideas and best practices.

EXPERIENCE

Intern at Black Bear Securities

October 2024 - March 2025

- Completed hands-on training covering OSINT techniques.
- Worked on Cyber Threat Intelligence (CTI) by analyzing threats and writing reports with findings and recommendations.
- Performed digital forensic imaging using real-world scenarios to collect and examine digital evidence.

Capstone Project: CareerLinkNEUCareerLinkNEU Website

March 2024 - March 2025

- Designed and developed a web application that connects students and alumni to career opportunities posted by partner companies within our university. The system also includes a tracer feature to track the career progress of alumni and current students.

PWNEU CTF

April 2024

- Participated in the university's Capture The Flag (CTF) event, PWNEU.

Attended SANS Community Night

February 2025

- Gained insights into current cybersecurity trends and best practices shared by professionals in the field.

EDUCATION

Information Communication Technology (ICT)

2018-2020

New Era University

Bachelor of Science in Information Technology (BSIT)

2020-2025

New Era University

SKILLS

- Programming, Web Penetration Testing, OSINT, Report Writing, CTF, Kali Linux.
- Teamwork Collaboration, Active listening, Time Management, Calm under pressure.
